

Chimdike John

Software Engineer

Hello! I'm John, a student learning how to make cool stuff with computers at ALX. I know Python, HTML, CSS, TailwindCSS, and Javascript pretty well. I love turning creative ideas into real things that people can use. I'm still learning, but I'm excited about getting better every day. Let's build something awesome together! ---

Achievements/Tasks

- I made a cool Landing Page for a digital marketing company. It's designed to grab attention, get people interested, and show what makes the brand special.
- Made my own Portfolio website to show off my work and skills. It's a simple and user-friendly place where you can learn more about me and what I do.
- Built a calculator web app
